

How to Measure Your Custom Fence Privacy Screen

Before You Start

- ✓ Use a measuring tape and measure directly against your fence, edge to edge.
- ✓ Measure at the actual size you want covered, we automatically add 2cm–5cm of leeway to your final screen size, so you don't need to add extra yourself.
- ✓ If your fence measures 183 cm in height and 305 cm in width, enter these exact measurements in the measurement boxes without adding any buffer. Your finished screen will be made slightly larger, approximately 186–188 cm in height and 308–310 cm in width, ensuring a comfortable and easy fit.

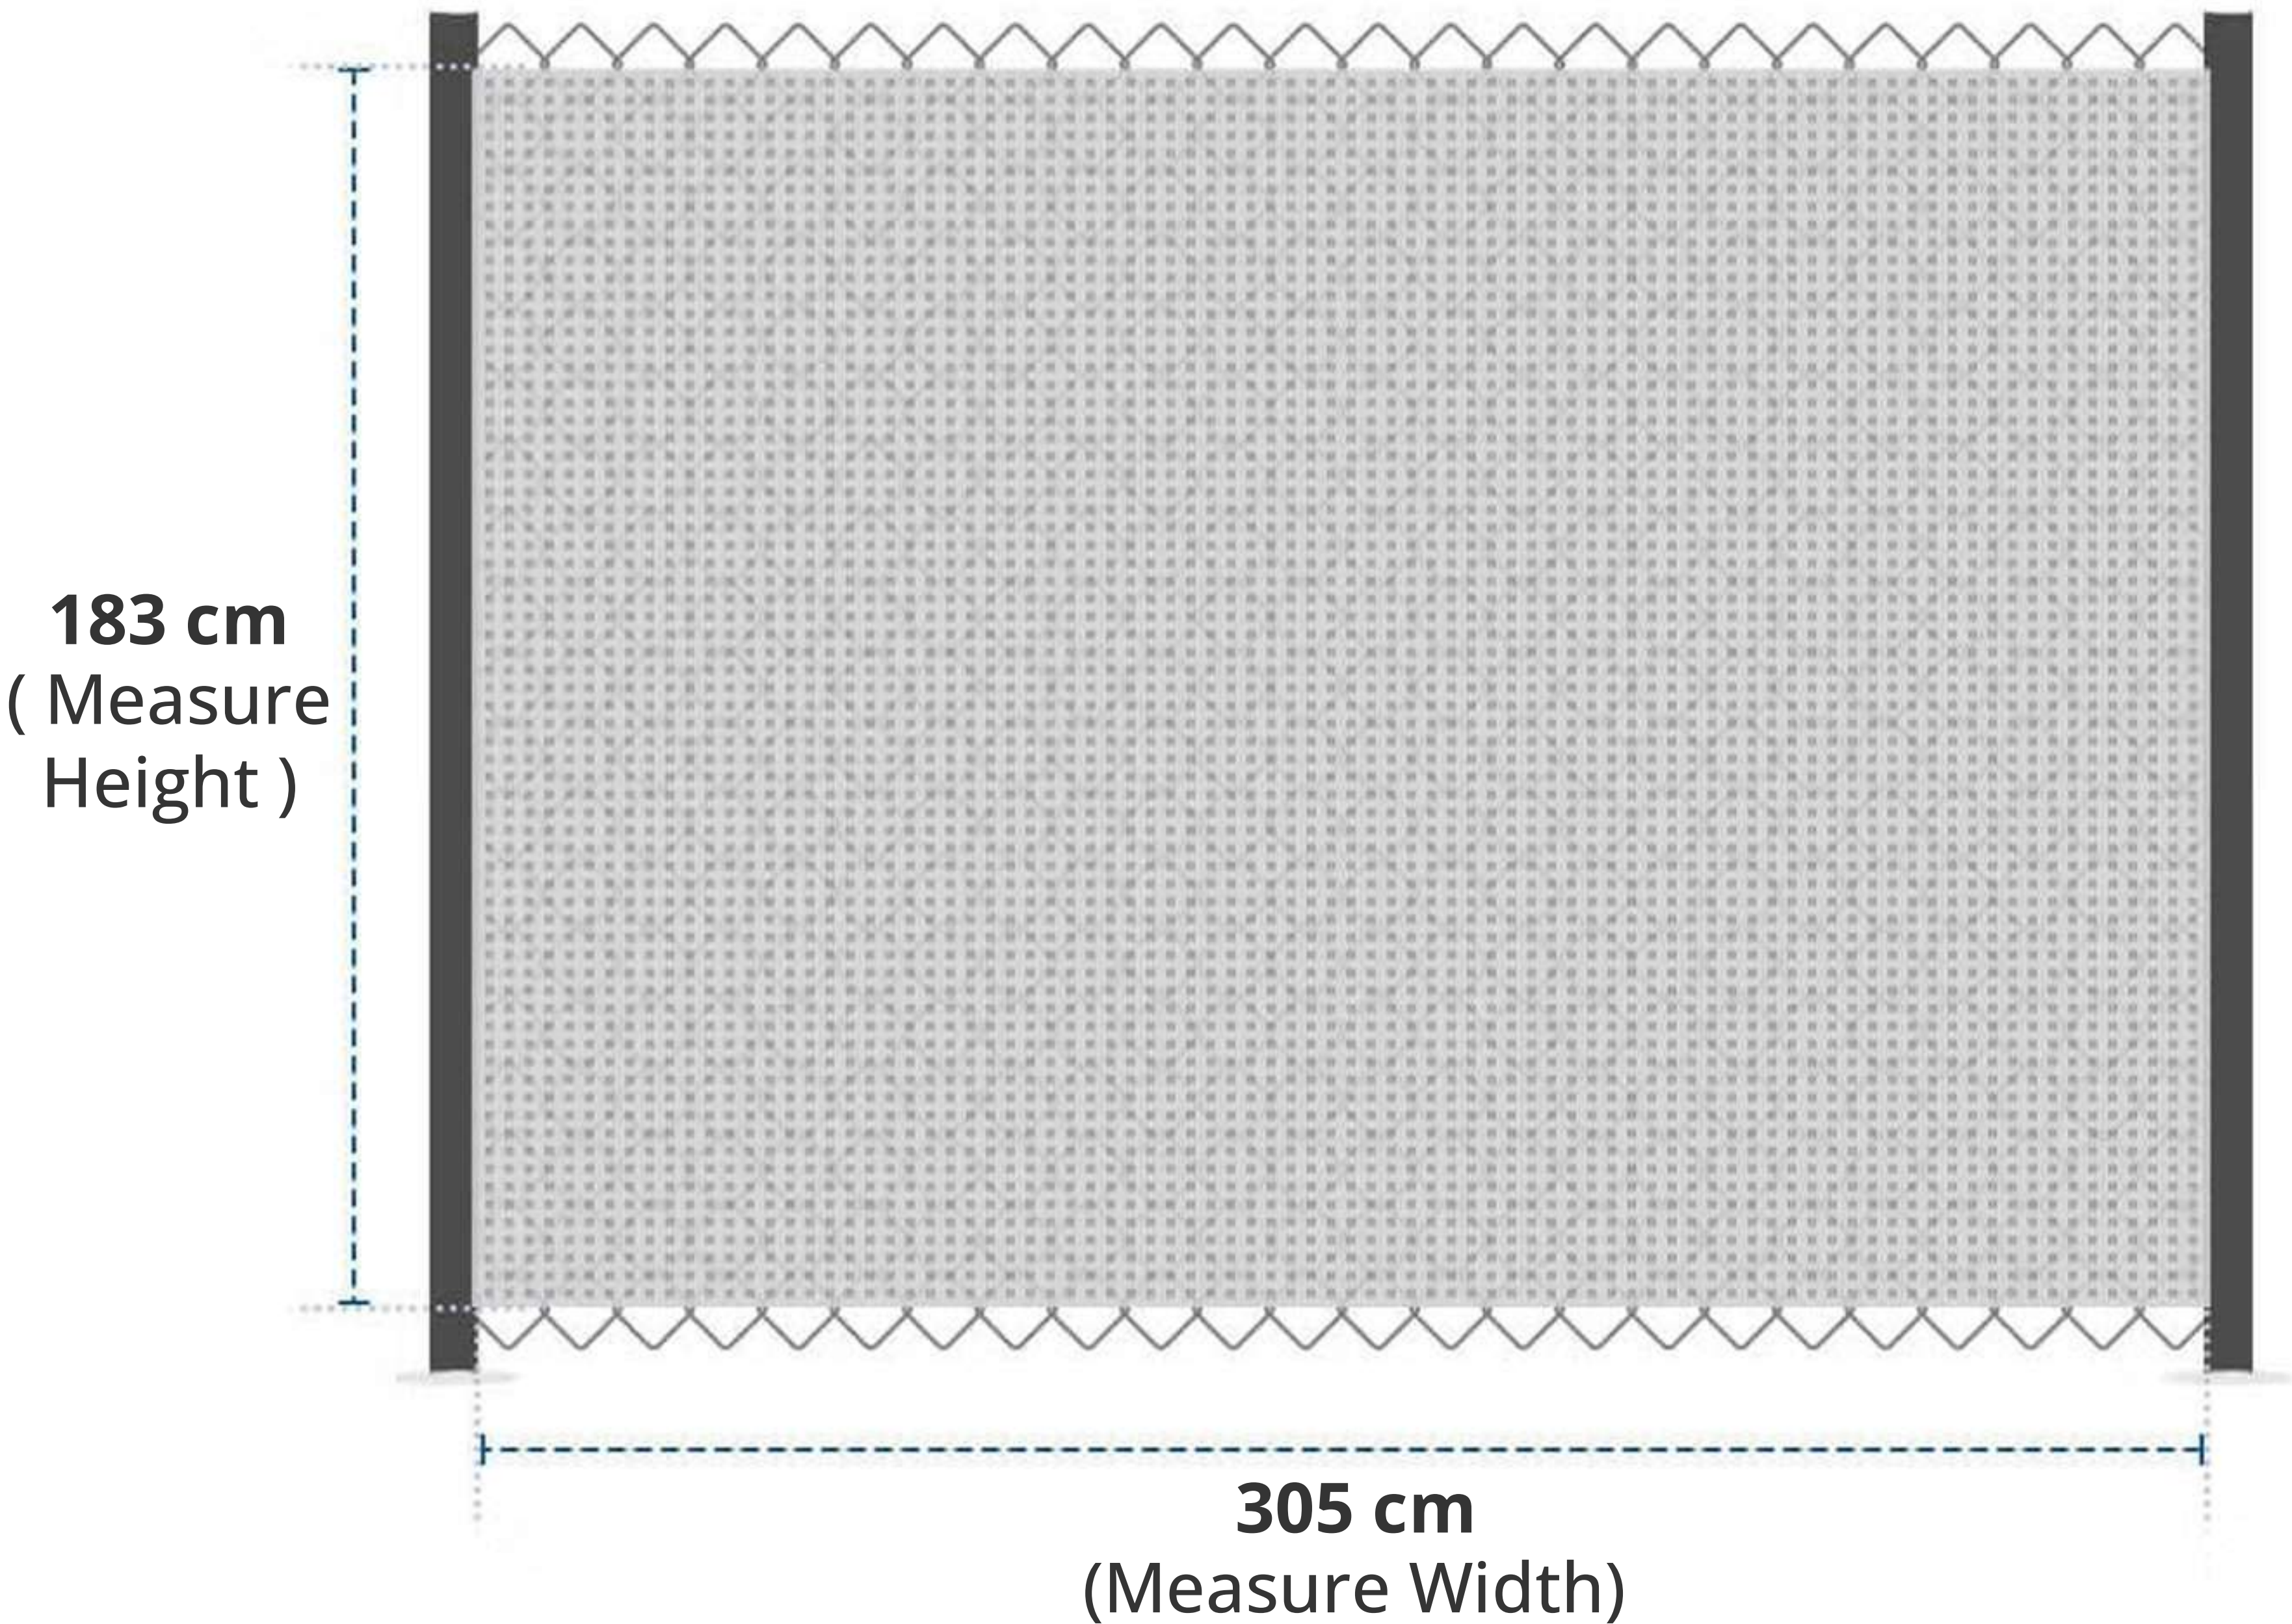

MEASURING EXAMPLE

Your Fence Size (What You Measure)

HEIGHT: 183 cm
WIDTH: 304 cm

Finished Screen Size (What You Receive)

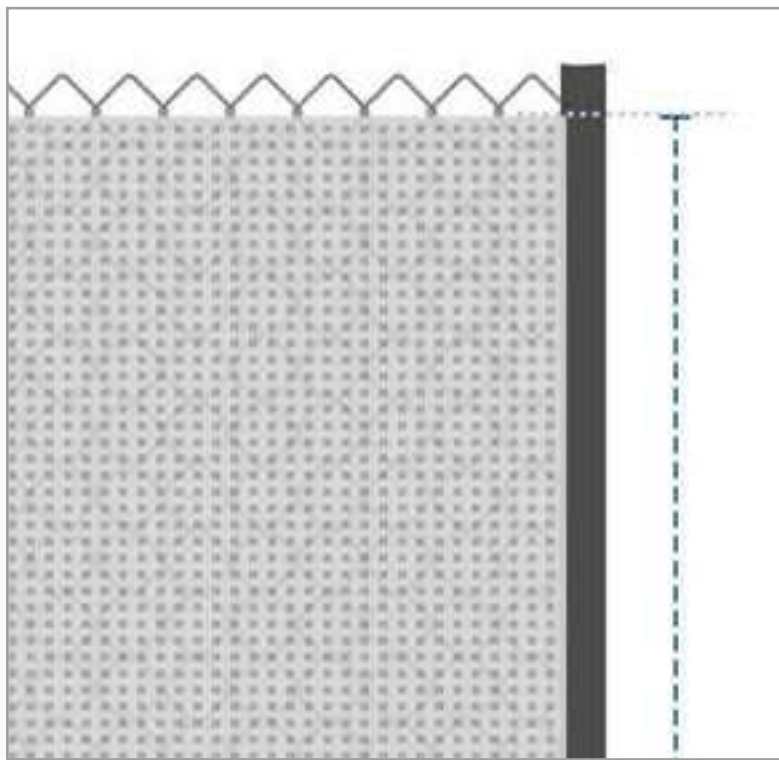

HEIGHT: 186–188 cm
WIDTH: 308–310 cm

What to Measure

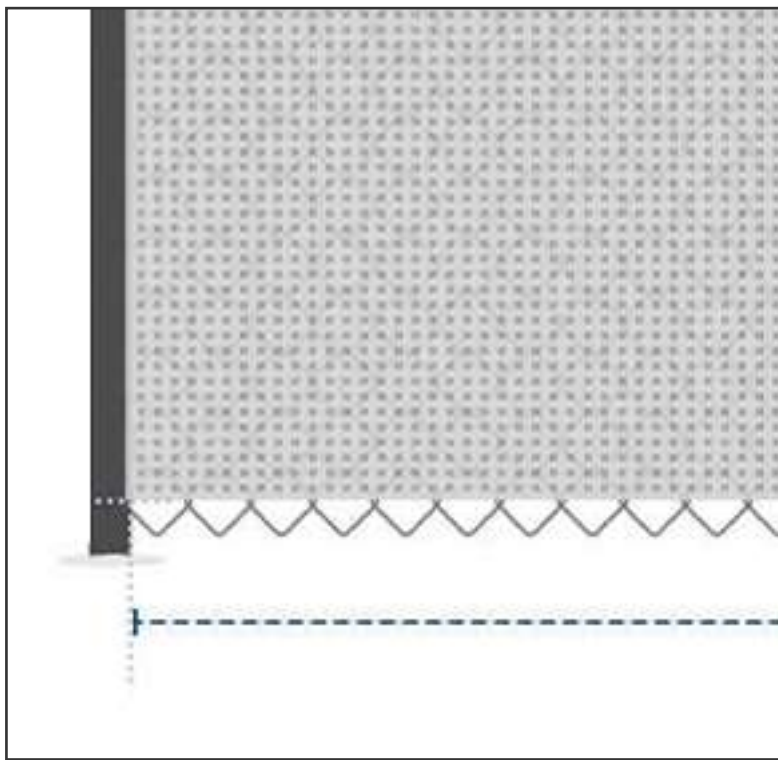

1. Height

Measure straight up from the bottom of the area you want covered to the top edge of your fence

2. Width

Measure straight across, from one end of the section you want covered to the other

Note: If your fence has any unusual angles, posts, or obstructions, snap a photo and upload it with your order, it helps our team tailor the screen to your exact setup.
